Buyers paid a premium for deep pedigrees and popular sire stacks. Scotch View Farms, Stamford, N.Y., bought the high seller—a heifer of their own breeding—for \$1,900. Scotch View TBone Cheryl is sired by the breed's former #1 sire for JPI, Richies Jace TBone A364, GJPI +173, and sold due to the breed's current #1 "G" code bull, All Lynns Louie Valentino-ET, GJPI +268, in late June. The P9 bred heifer has a PA of +2.3 for Productive Life and a PA JPI of +110.

Her dam is sired by ISDK Q Impuls, GJPI +189. Two of her dam's maternal sisters are Very Good and have records to 24,010 lbs. milk, 1,098 lbs. fat and 878 lbs. protein. "Cheryl's" grandam is a Mason Boomer Sooner Berretta, GJPI +40, daughter with seven lactations—three of them over 18,400 lbs. milk, 710 lbs. fat and 670 lbs. protein.

"Cheryl's" next three dams are Excellent and have solid production in a minimum of nine lactations. Her third dam, Scotch View Lester Nancy, Excellent-90%, has an m.e. average of 17,831-734-604 on 10 lactations and two records over 19,300 lbs. milk. Her fourth dam, Scotch View Brigadier Hope, Excellent-90%, has an m.e. average of 18,356-817-652 on nine lactations and made her best record of 22,140 lbs. milk, 974 lbs. fat

and 714 lbs. protein in her last lactation at 10-0. Her fifth dam, Red Star Shawna, Excellent-92%, has 11 lactations, two of them over 21,000 lbs. milk, 960 lbs. fat and 710 lbs. protein.

"Cheryl" was consigned by Ralph Taylor Jr., Walton, N.Y., who had purchased her as a heifer calf in 2009.

Matthew M. Terry, Franklin, N.Y., purchased the second high seller, Longview Jacinto Cali, for \$1,825. The daughter of Mason Lemvig Jacinto-ET, GJPI +55, sold fresh with her first calf in late April and gave 50 lbs. milk on her May test. Her dam, Longview Country Cathy, Excellent-91%, has a four lactation m.e. average of 16,970-829-661. "Cathy" has two Very Good maternal sisters and an Excellent-92% maternal sister with 21,550 lbs. milk, 885 lbs. fat and 778 lbs. protein.

"Cali's" Very Good-82% grandam is sired by Schultz Brook Hallmark, GJPI +48. Her Very Good-88% third dam is sired by Longview Turbo Lightning-ET, JPI -73. Her fourth dam is appraised Excellent-91% and made 21,000 lbs. milk, 1,187 lbs. fat and 802 lbs. protein at 4-9. The next dam has a five lactation m.e. average of 19,540-1,013-755.

"Cali" was consigned by John Tryon, Cobleskill, N.Y.

The third high seller was a Wilderness Blueprint, GJPI +80, daughter that calved the day before the sale. Brian R. Lynch, Antwerp, N.Y., placed the final bid of \$1,800 on Dar View Blueprint Tango, who is backed by eight generations of Excellent or Very Good dams with solid production. "Tango's" dam is a Very Good-80% daughter of Dar-View Freedom Napolian, JPI -48, with 17,460 lbs. milk, 731 lbs. fat and 555 lbs. protein in her third lactation. She has an Excellent-90% maternal sister with 20,380 lbs. milk. Their Excellent-90% dam is sired by All-Top All American, GJPI -48, and has an m.e. average of 17,572-865-619 on two lactations.

"Tango's" third dam is a Very Good-83% daughter of OSBS Mister T, JPI -32, with an m.e. average of 18,603-744-614 on four lactations and a best record of 4-3 305 20,710 4.1% 839 3.2% 669 95DCR.

She was consigned by Emily Schmitt, Oneonta, N.Y.

As previously mentioned, the volume buyer was Multi-Rose Jerseys Inc., who selected 45 head for \$53,675. Paul J. Frangione, Westtown, N.Y., purchased 10 head for \$11,075 and Lynch chose eight head for \$10,750.
